PROFESSIONAL SUMMARY

Senior Software Engineer and Backend Team Lead with 7+ years of experience across Bangladesh and Malaysia, specializing in backend development, cloud infrastructure, DevOps, and fintech systems. Proven track record of designing and deploying scalable microservices, CI/CD pipelines, and Kubernetes-based orchestration in fast-paced, cross-cultural environments. Experienced in integrating Generative AI (GenAI) solutions and Large Language Models (LLMs) into production systems. Demonstrated leadership in fintech product delivery, including payment gateways, tokenized payments, and QR-based global payment systems. Adept at mentoring engineering teams and collaborating with stakeholders to ship high-impact software products on time.

TECHNICAL SKILLS

- **Programming Language:** *Python, JavaScript, PHP, Java*
- **Framework:** *Django, Flask, Laravel, React.js*
- **Generative AI:** *Large Language Models (LLMs), OpenAI API, LangChain, Prompt Engineering*
- **Cloud & DevOps:** *AWS (S3, Lambda), Azure Pipeline, GitHub Actions, Docker, Kubernetes (k8s), Helm, Flux, k9s*
- **Messaging & Streaming:** *Apache Kafka, Redis, Celery*
- **Database:** *MySQL, PostgreSQL, MongoDB, MsSQL*
- **Tools & Practices:** *Git, Jira, ELK Stack, REST API, Microservices Architecture, CI/CD, Agile/Scrum*
- **Certifications:** *ITIL® 4 Foundation (IT Service Management), PCAP™ Certified Associate Python Programmer*

PROFESSIONAL EXPERIENCES

Senior Technical Consultant at Arvato Systems Malaysia [Oct 2023 – July 2025]

- Migrated CI/CD pipelines from Azure DevOps to GitHub Actions
- Developed automated GitHub Actions workflow for unit test execution, improving code quality and release confidence
- Built a health monitoring system for all the REST provider services, ensuring high availability
- Developed REST provider services using **Flask** framework following best practices
- Implemented Python scripts to publish and consume messages via **Apache Kafka** for event-driven architecture
- Deployed and managed services on **Kubernetes** clusters using **Flux** and **Helm** charts
- Managed secrets & sealed-secrets, monitoring logs and pod resources using **k9s**

Backend Team Lead at UCB Fintech Company Ltd. [Oct 2020 – Sep 2023]

- Led a backend engineering team to deliver fintech products on schedule using Agile methodologies
- Provided technical mentorship and code reviews to maintain high coding standards across the team
- Reviewed Business Requirement Documents (BRDs) for technical feasibility analysis
- Designed and implemented UPAY Bangla QR — a global payment solution integrating multiple Mobile Financial Services (MFS)
- Architected and delivered Merchant Services, Payment Gateway, and Tokenized Payment systems
- Integrated third-party services including DNCC Holding Tax and SSL Wireless Payment Aggregator
- Collaborated closely with stakeholders to ensure iterative and timely product releases

Sr. Software Developer at RedDot Digital Ltd. [Mar 2020 – Sep 2020]

- *Developed and maintained API services for Binge, an OTT streaming platform*
- Contributed to R&D for a Recommender System for personalized content delivery on Binge
- Built and maintained the corporate website for RedDot Digital
- *Developed a module for HRIS Leap, the internal HR system of Robi Axiata*

Software Engineer at Spring Rain Pvt. Ltd. [May 2019 – Nov 2019]

- Built full-stack in-house services using Node.js (KOA framework) for backend and React-Redux for frontend
- Maintained AWS-compatible codebase standards and ensured deployment readiness
- Conducted peer code reviews to maintain code quality
- Managed project tasks and sprint planning using Jira

Programmer at Synesis IT Ltd. [Oct 2017 - Dec 2018]

- Developed backend systems using WAMP stack with PHP and JavaScript
- Built applications using Laravel and Vue.js frameworks
- Contributed to multiple client-facing backend projects

EDUCATIONAL QUALIFICATIONS

Master of Computer Science [2025-2026]

University of Adelaide

BSc in **Computer Science and Engineering**, CGPA: 3.3/4.0 [2013-2017]

United International University

HSC from **Dhaka Residential Model College**, GPA: 5.0/5.0 [2009-2011]

SSC from **Dhanmondi Govt. Boys High School**, GPA: 5.0/5.0 [2007-2009]

TECHNICAL CERTIFICATES

- **ITIL® 4** – *Foundation Certification in IT Service Management*, issued by **PeopleCert**
- **PCAP™** – *Certified Associate Python Programmer*, issued by **Python Institute**

CONFERENCE PUBLICATIONS

- ["RAiTA: Recommending Accepted Answer using Textual Metadata"](#), accepted in **IEMIS-2018**
- ["VIM: A Big Data Analytics Tool for Data Visualization and Knowledge Mining"](#), accepted in **IEEE WIECON-ECE-2018**

AWARDS

- **Champion** - Intra University Project showcase, 2014
- **Runners up** - Intra University Gaming competition, 2012
- **Academic Excellence Award**, 2011

LANGUAGES

- **Bangla** - Native
- **English** - Fluent
- **Hindi** - Proficient
